61 and 61A

Technical Data Sheet

Data Oliv				
Description and Features	 61 and 61A are composed of Dacron and Glass woven fabric impregnated with a hig quality electrical insulating varnish. 61A has a thermosetting acrylic pressure sensitive adhesive applied in one side. Both tapes have excellent flexibility and elongation. The have high dielectric strength, conforms tightly to irregular shapes and surfaces. Straight weave with bias characteristics. Exceptionally high dielectric strength. Retains dielectric strength on heat aging. Excellent flexibility and conforms well to irregular shapes. High tensile and edge-tear strength. Meet requirements for Class F insulation.
